CHAMPION NURSERIES

PERRY, OHIO

ANNOUNCEMENT

We take pleasure in presenting our Annual Catalog and Price List.

We wish to thank all of our customers for their liberal patronage during the past year and all correspondence regarding your needs for the present or future will be cheerfully answered.

To those who are unacquainted with us, we ask you to give us a trial.

Get up a club order among your neighbors and take advantage of the low rate.

Remittances should be made by New York Draft, Postoffice Money Order, Express Money Order or Registered Letter.

Can ship on Lake Shore or Nickel Plate Railways, American or National Express Company and Electric Package Company.

Those wanting a large amount of stock should send list of their wants for special prices, stating plainly the size and number of each variety.

Perry is situated thirty-five miles east of Cleveland and six miles east of Painesville on the L. S. & M. S. and N. Y., C. & St. L. Railways; also on the C. P. & A. Electric line.

Cars every hour from Cleveland and Ashtabula.

CERTIFICATE OF NURSERY INSPECTION

No. 111

Columbus, Ohio, Aug. 29, 1914.

This is to certify, that the nursery stock for sale by **H. J. CHAMPION & SON** of Perry, County of Lake, State of Ohio, consisting of General Nursery Stock, has been inspected by a duly authorized inspector in compliance with Section 1124, Page 314, Laws of Ohio, 1913, and has been found apparently free from dangerously injurious insects and plant diseases.

Valid until September 15, 1915, unless revoked.

(Signed) THE OHIO STATE BOARD OF AGRICULTURE.

A. P. SANDLES, Secretary.

N. E. SHAW, Chief Inspector.

H. J. CHAMPION & SON

CONDITIONS OF SALE

IN FILLING orders from this list we reserve the right in case that we are out of a variety, to substitute another of equal merit when it can be done (always labeling with the correct name), unless the party ordering says "no substituting," in which case we will fill the order so far as we can and return the balance. Always give full and explicit shipping directions, as our responsibility ends on delivery of trees in good condition to the freight office.

We shall be pleased to quote prices to any one desiring different sizes or stock in larger quantities than offered herein. In sending list state definitely the number of each size and variety wanted.

We guarantee all stock to be up to size and grade specified in list, to be in good condition and carefully packed; this guarantee holds good only when prompt notification on arrival of stock is sent us, stating plainly any errors or cause for complaint.

While we exercise the greatest diligence and care to have all our trees, etc., true to label, and hold ourselves in readiness, on proper proof, to replace all trees, etc., that may prove untrue to label, free of charge, or refund the amount paid, it is mutually understood and agreed to between the purchaser and ourselves, that our guarantee of genuineness shall in no case make us liable to any sum greater than that originally received for said trees, etc., that prove untrue.

TERMS—Cash, unless otherwise agreed upon—5 at 10 rates, 50 at 100 rates; but if remittance amounts to \$15 and up, everything at lowest rate quoted in this price list, both fruit and ornamental. No charge for delivery at express office or railway station here.

LOCATION OF NURSERIES

Our Nurseries are located on the south shore of Lake Erie where the conditions are such that we are enabled to grow good, thrifty, well rooted stock, which ripens thoroughly and goes into winter storage in fine shape.

Our twenty-four years experience in growing and handling stock has enabled us to build up a trade which extends from Massachusetts to California.

We have the benefit of a large variety of soils which enables us to grow the different kinds of trees, plants, shrubs, etc., on the soil which is best adapted to their growth thus producing good, healthy stock in the shortest time.

All trees and stock are carefully handled from digging time until shipping by experienced employees; all work being under our personal supervision.

All stock is carefully graded to the standard grades and stored in our frost proof cellars until time of shipping.

APPLE TREES

	Each	Per 10	Per 100
Standard, 5 to 7 feet.....	\$0.40	\$3.50	\$25.00
Standard, 4 to 5 feet.....	.30	3.00	20.00

SUMMER VARIETIES

Early Harvest—Medium to large, yellow with white flesh.

Red Astrachan—Large, deep crimson; valuable for early market and home use.

Yellow Transparent—Medium to large; fine quality; an early and prolific bearer.

Golden Sweet—Large; one of the best sweet apples grown. August.

Sweet Bough—Large, yellow; annual bearer; of finest quality.

AUTUMN VARIETIES

Maiden's Blush—Good size; yellow with red blush; productive.

Duchess of Oldenburg—Large, striped with red and yellow; profitable market variety. Very hardy.

Fall Rambo—Yellow, striped with red, medium size and excellent flavor.

Pumpkin Sweet—Large, yellow russet; very sweet and rich. September and October.

Ohio Nonpariel—Good size, yellow striped with red.

Gravenstein—Good size, attractive, skin is striped with red.

WINTER VARIETIES

Stayman's Wine Sap—One of the finest apples grown; flesh fine, crisp and high flavored. Good keepers.

Gano—Fruit handsome, dark red; season December to March; prolific bearers.

York Imperial—Productive, good quality, medium size, delightful flavor. December to February.

McIntosh—Red; flesh white and tender; fine dessert apple.

Rome Beauty—Large and handsome; good bearer in some localities.

Johnathan—Medium size; handsome; tree young and prolific bearer.

Baldwin—One of the best market varieties; red. December to April.

Grimes Golden—Medium to large; beautiful yellow; excellent quality; abundant bearer.

King—(Tompkins Co.) very large; red; an abundant bearer.

Northwest Greening—Large, yellow; good quality; long keeper and an annual abundant bearer.

Northern Spy—Large, striped, delicious flavor; tree hardy.

Paradise Winter Sweet—Medium to large; good for either home or market; very productive.

R. I. Greenings—Large, greenish yellow; a fine cooking apple; subacid; very productive.

Sutton Beauty—Resembles Baldwin, but of better quality.

Wealthy—Red; white fleshed; juicy. One of the handsomest apples grown.

Talman Sweet—Medium size, pale yellow, slightly tinged with red; fine for baking.

Banana—Large, pale yellow with red blush, flesh is very tender and sweet, excellent for dessert. Tree is a thrifty grower and bears early.

Arkansaw Black—Large, crimson black, a late keeper.

Mammoth Black Twig—A large dark red, strong grower.

Delicious—Fruit large, nearly covered with brilliant red, a good keeper.

Wolf River—Large, yellow, flushed with crimson.

APPLES—Continued

- Wagner**—A fine red apple, a young and prolific bearer.
Wine Sap—A red apple of medium size.
Hubbardstons Nonesuch—Large, yellow and red, good bearer.
Golden Russet—Medium size, clear golden russet with slight blush, tree hardy.
Fameuse or Snow—A medium size, deep crimson, flesh white and tender.
Winter Rambo—Greenish yellow, striped with red.
Ben Davis—Large, brightly striped with red, good keeper.

CRAB APPLES

- Hyslop**—Large, dark, rich, red fruit; very handsome. October.
Transcendent—Yellow, with rich crimson cheek; very productive. September.
Whitney—Large, greenish, striped with red; firm and juicy. August.

PEAR TREES

	Each	Per 10	Per 100
Standard, 5 to 7 feet.....	\$0.35	\$3.00	\$25.00
Standard, 4 to 5 feet.....	.30	2.50	20.00
Dwarf, 4 to 5 feet.....	.20	1.80	15.00
Dwarf, 3 to 4 feet.....	.20	1.50	12.00

Varieties marked with a star can supply either dwarf or standard.

- ***Anjou**—Large, greenish yellow, rich vinous, a good autumn pear. October to December.
 ***Bartlett**—Large, size, rich melting, delicious. Succeeds everywhere; good for home or market. September.
 ***Clapp's Favorite**—Very large golden yellow with red cheek; very productive. Ripens a week before Bartlett.
 ***Duchess**—Very large, greenish yellow, excellent for canning. Succeeds best as a dwarf. One of the leading market sorts. Very productive. October and November.
Flemish Beauty—Large, sweet; very productive and hardy. September and October.
Howell—One of the finest fall pears; yellow; excellent quality. September.
 ***Keiffer**—Very large, deep yellow; tree very hardy; strong grower; a heavy annual bearer. October to December.
Lawrence—Medium size, golden yellow; very rich; the finest early winter pear; very productive. November and December.
Mary—Greenish yellow with red cheek; tree vigorous and bears very young. We think this the most profitable of the early pears. First of August.
Rosney—Large size, handsome; very sweet and juicy; a fine new variety; ripens ten days after Bartlett.
 ***Sheldon**—Medium to large; russet; of the very best quality; a good bearer. October.
 ***Seckel**—A small pear of excellent flavor; fine for picking and dessert. Very productive. September and October.

PEARS—Continued

- * **Worden Seckel**—A seedling of the Seckel, of as fine quality and larger Golden yellow with red cheek. October to December.
 * **Wildier**—Early, of medium size and good quality, does well as a dwarf.
 * **Louise Bonne De Jersey**—Good size, pale yellow with red cheek. One of the best dwarf sorts—September and October.

QUINCES

Champion—A large, late sort, producing good crops.

	Each	Per 10	Per 100

SWEET

Allen—Large glossy black; firm and sweet. Last of July.

Black Tartarian—Large dark purplish black; tender and rich. June and July.

Gov. Wood—Large light red; very early and productive; hangs well on tree. June.

Napoleon—Largest size; yellow with red check; firm, juicy and sweet; valuable for shipping; very productive. July.

Rockport—Large light red. Last of June.

Windsor—Very large; liver colored; finest quality; firm and excellent for shipping. July.

Yellow Spanish—Large yellow with red cheek. Late June.

SOUR CHEERIES

Dyehouse—Medium size; like Early Richmond, but earlier; fruit hangs well on tree.

Early Richmond—One of the leading cherries for market; hardy and productive. June.

English Morello—Dark red; acid; very hardy; early bearer. July.

Montmorency—Fruit large and red; fine flavor; very hardy and immense bearer. July.

May Duke—Large dark red; tender, subacid and very hardy; early. Middle of June.

ITALIAN PRUNE OR FELLENBURG

PLUM TREES
(B u d d e d o n p l u m)

	Each	Per 10	Per 100
5 to 6 feet.....	\$0.35	\$3.00	\$25.00
4 to 5 feet.....	.30	2.50	20.00

- Bradshaw**—Very large; dark violet red; good market sort. August.
- German Prune**—A valuable plum for preserving and drying; dark blue; juicy and rich. September.
- Geuii**—Large bluish purple with deep bloom; tree rapid grower; one of the best market varieties. September.
- Grand Duke**—Very large; dark; fine quality; productive. Last of September.
- Lombard**—Medium to large; dark red; hardy and very productive; a leading market sort. Last of August.
- Reine Claude (Bavey's Green Gage)**—Large round; greenish yellow; excellent for canning; one of the best varieties; very productive. September.

PLUM TREES—Continued

- Shipper's Pride**—Large; deep purple; fine; a good shipper. September.
- Shropshire Damson**—Larger and better than common Damson; very productive. September.
- Niagara**—Similar to Bradshaw.

PLUMS

- Italian Prune**—(Fellenburg). A fine purple plum with thick flesh which frees from the stone, very delicious. September.
- Yellow Egg**—A very large and beautiful yellow plum; fine for cooking; good variety for nearby markets.
- Moore's Artic**—A medium size, dark purple, flesh yellow. August.

JAPANESE PLUMS

- Abundance**—Medium size; amber, turning to a bright red; flesh yellow; juicy and tender. August.
- Burbank**—Large size; red; tree hardy and vigorous; very productive. Late August.
- Wickson**—Large red; covered with a light bloom; flesh yellow and rich; tree upright grower. September.
- Red June**—Medium size; red; one of the most productive and best of the early Japanese plums.

PEACH TREES

Peach trees are one of our leading specialties, our location and soil being well adapted to their culture. We grow them from southern natural seed, which is free from yellows and other diseases. They are fine, well ripened stock. Those varieties starred are clingstones; those not so marked are freestones.

	Each	Per 10	Per 100
4 to 5 feet.....	\$0.25	\$1.50	\$12.00
3 to 4 feet.....	.15	1.20	9.00
2½ to 3 feet.....	.10	.75	5.00

- Belle of Georgia**—Very large; white with red cheek, firm; of excellent flavor; tree very thrifty and productive. August.
- ***Heath's Cling**—Large, creamy white with faint blush, good quality; valuable for preserving and canning. October.
- Stearns**—A new peach originated in Michigan. Large yellow freestone with large red cheek; follows Elberta. As a shipper it can not be surpassed. Tree a very strong, upright grower. September.
- ***Wm. Favorite**—Large, late yellow clingstone.
- ***Alexander**—Medium; white covered with red. July.
- ***Triumph**—Medium; yellow with red cheek. July.
- Champion**—Large; white with red cheek; sweet, rich and juicy; hardy and productive. August.
- Mt. Rose**—Medium to large; white flesh; sweet and good. Early August.
- Carman**—Quite large; creamy white with deep blush; tree hardy in bud. August.

STEARNS

WOOSTER

PEACHES—Continued

Wooster—This excellent new variety originated on the fruit farm of Mr. Wooster, about twenty miles from Pittsburgh. It is a large yellow freestone, with red cheek. Handsome, of highest quality, and the tree very hardy in wood and bud. It bears large crops annually when others fail. Ripens about September 20th. We think this the best of the new varieties. Trees, 4 to 5 feet, 40c each, \$2.00 per 10. Time of ripening as given is based on the season in Northern Ohio.

Crawford's Early—A fine old variety; very large, yellow, rich and juicy. Last of August.

Fitzgerald—As large as Crawford; very best quality; a heavy bearer; tree fruits very young; ripens just after Early Crawford.

Yellow St. John—A fine early yellow peach with red cheek; good bearer. August.

PEACHES—Continued

- Mathew's Beauty**—Large yellow with red cheek; a little later than Elberta; a good market variety.
- Niagara**—One of the largest yellow peaches; fine quality; good shipper. Ripens just after Elberta.
- Crosby**—Medium to large; yellow flesh; small pit; good quality and productive. Ripens about September 15th.
- Engel's Mammoth**—Large yellow with red cheek; a good market variety. September.
- Elberta**—Very large yellow with red cheek; good shipper; succeeds everywhere. September.
- Stump of the World**—Large and handsome; white with red cheek; high quality. Late September.
- Reeve's Favorite**—Large yellow with red cheek; fine flavor. September.
- New Prolific**—A fine yellow peach; hardy; productive. Ripens just before Elberta.
- Crawford's Late**—Large yellow; sweet; rich. September.
- Lemon Free**—Large; resembles a lemon in shape and color; excellent for canning; very productive. Last of September.
- Banner**—Large; yellow, with red cheek; flesh firm and rich; an excellent shipper. Tree bears young and is very hardy. We believe this to be one of the most profitable market varieties. October.
- Salway**—Very large; yellow, firm, rich and juicy. Very late October.
- Marshall's Late**—Very large yellow; a fine peach. Ripens after Smock and before Salway.
- Beer Smock**—Large yellow; better than smock free; a very profitable market sort. Early October.
- Red King**—This one of our new peaches offered this season for the first time of which we have a limited stock of thrifty trees. The fruit is medium to large; skin and flesh being both a deep red; excellent quality; very fine for canning and preserving; retains its red color when canned. We believe this to be one of the hardiest peaches grown. 50c each, \$4.00 per ten.
- Mayflower**—Bright red, a good size, extremely early.
- Kalamazoo**—Large yellow, with crimson cheek, good quality. Sept.
- Greensboro**—Large, white and red, flesh juicy. July.
- Admiral Dewey**—Fine size, flesh yellow. July.

STRAWBERRIES

One of the finest fruits grown. Everyone having any room for fruit should have a strawberry bed. We have made the growing of strawberries one of our specialties. We grow them on rich, loose gravelly soil that produces strong, vigorous plants which are second to none.

Price 75c per hundred or \$4.00 per thousand except as otherwise noted.

STRAWBERRIES—Continued

Those varieties marked (p) are perfect bloomers and those marked (i) are imperfect, and require that every fourth or fifth row be planted with some perfect blooming variety.

Highland (p)—Plants very large, strong and vigorous; is a good business berry and money maker; fruit medium to large; flesh red clear through. \$1.00 per hundred or \$6.00 per thousand.

Early Ozark (p)—Plant healthy with dark green foliage; fruit firm and of great size, the largest early strawberry. \$1.00 per hundred or \$6.00 per thousand.

Excelsior (p)—Dark red; vigorous grower; very productive. Early.

Climax (p)—A fine grower bearing large crops of rich, red, round berries of fine quality. Excellent for market or home use. We believe this to be one of the most profitable berries grown. Medium early.

Bradywine (p)—Medium late; fruit large and firm; of good quality.

Bubach (i)—Medium early. An old variety, large and of fair quality.

Dunlap (p)—Medium early and continues in bearing a long time; fruit medium to large; deep rich red; flesh red; very productive; a grand berry.

Glen Mary (p)—Medium early; large; firm and good shipper.

Gandy (p)—Late; fruit is large, regular in shape and firm; good market sort.

Haverland (i)—An old reliable sort; bright red, moderately firm; early.

Marshall (p)—Medium early, makes a large stalky plant; berries of great size; very dark red and glossy; of delicious flavor; not very heavy bearer.

Parson's Beauty (p)—Midseason. Vigorous grower and very productive; fruit is large, bright red and firm. A very popular sort.

Sample (i)—Late. Plant is large and healthy, making plenty of runners; fruit large, roundish and dark red; succeeds everywhere.

Warfield (i)—Midseason. Bears large crops of fair sized dark red berries.

Wm. Belt (p)—Midseason. Large size; bright red color; a good plant maker.

Jessie (p)—Midseason. Berries long and very sweet; succeeds well in some localities.

Uncle Jim (p)—Midseason. Large size and of excellent quality.

Pride of Michigan (p)—Medium early. Plants vigorous and healthy; good plant maker; enormously productive; large and of oblong shape; color dark red; a good shipper.

STRAWBERRIES—Continued

Stevens Late Champion (p)—Late. This variety makes strong, vigorous plants, which yield heavy crops of fruit, and throws out lots of runners; fruit large bright red; flesh is also red but lighter and of good flavor. An excellent keeper after being picked. The best late variety in this section. Far superior to either Latest or Nettie; having fruited all three on our own grounds.

Rickman (p) (or Hathaway's Hundred Dollar Berry)—Midseason. A large berry of good quality; resembles Uncle Jim.

BLACKBERRIES

Blackberry plants are one of our specialties having raised this last season about 300,000. We grow them on sandy soil and have a very fine stock of large well rooted plants. We also have a nice lot of medium grade which make a good plant for fruit growers. Prices on this medium grade will be cheerfully sent on application.

	Per 10	Per 100		Per 10	Per 100
Taylor	\$0.30	\$1.50	Snyder	\$0.40	\$1.60
Mersereau50	1.75	Eldorado50	1.75
Lucretia Dewberry..	.50	1.75	Blower75	3.00
Early King30	1.50			

Early King—Early; hardy; good size and of fine quality; productive.

Snyder—Most vigorous; hardy; productive; berries good size; valuable for cold climate.

Taylor—A little later than Snyder, equally hardy and productive; sweet and of high quality.

Eldorado—The leading standard market variety; berries are large, black and very sweet, having no hard core; very hardy and productive.

Mersereau—Strong grower; very hardy; very productive; ripens early.

Lucretia Dewberry—Large berry of trailing habits, ripens before raspberries are all gone.

Blower—Claimed to be the hardiest, most productive and finest quality and commands the highest market price. Large size; jet black; excellent shipper; a fine new sort.

For blackberries by the thousand write for prices.

NUTS

Butternuts—3 to 4 feet, 30c each; \$2.50 per 10.

Chestnut—American Sweet, 4 to 5 feet, 25c each; \$2.00 per 10.

Chestnut—Spanish. Tree produces nuts of immense size, but not as sweet as American, 4 to 5 feet, 50c each; \$5.00 per 10.

Japan Walnut—Young and prolific bearers, 3 to 4 feet, 20c each; 4 to 5 feet, 30c each.

Shrub Collection No. 2. Special price \$1.00. All good plants. 1 Philadelphia or Syringa, 1 Van Houtii Spiraea, 1 Anthony Waterer Spiraea, 1 Calycanthus.

SUGGESTIONS FOR TRANSPLANTING

Care of stock on arrival. Upon the arrival of a package, remove stock, wet down with water, and heal in, in mellow soil, packing dirt firmly upon roots. If soil is dry moisten well with water. Trees are then ready for planting and should be taken out only as needed, being very careful not to expose the roots to sun or wind as soon as exposed is not liable to grow. In small fruit plants bunches should be opened and roots spread out when healed - as

Soil for planting should be well drained either naturally or artificially by means of tile. Prune all bruised, in broken roots with a sharp knife. Trim the tree up to four or five branches suitable for forming a top; cut these branches back to within four or five buds of the body.

Planting: Make holes large so as not to crowd the roots, use surface soil for filling in and plant as firmly as possible, pressing soil well down with the feet. After planting mulch may be applied if desired. Never put manure in the hole with the roots.

Information regarding spraying will be cheerfully given upon application.

DISTANCE FOR PLANTING

Apples, Standard	30 to 40 feet	Gooseberries	3 to 4 feet
Plums	12 to 18 feet	Quinces	8 to 12 feet
Cherries	14 to 18 feet	Apricots	18 to 20 feet
